

## TERM & CLASS START & END DATES (2024 - 2030)

### 1. PURPOSE

**Term** start and end dates are critical and are required when scheduling classes. Choosing the correct term is important and must be based on the start date of the class. For example, if a class starts on April 22, 2025, it must be assigned to the winter term 2025 as spring term doesn't start until April 26.

The [Scheduled Classes Report](#) is automatically uploaded to the [Registrar's Office](#) SharePoint site every morning and should always be reviewed after scheduling classes. If a class is scheduled in the wrong term, it must be corrected, along with other errors found. Courses with tuition fees attached should be verified as well. The [NB 443 R SCHEDULED CLASSES](#) report can also be found in SIMS query viewer.
